Key Takeaways

Galvanized steel cable trays in Tonga typically range from $2 to $25 per meter, depending on type, size, and finish.

Price Range and Factors

The cost of galvanized cable trays varies widely based on several factors: Material: Galvanized steel is the most common choice, offering a balance of durability and affordability. Hot-dip galvanized (HDG) trays are more durable outdoors but cost more than pre-galvanized options. Type: Ladder trays are stronger and suitable for heavy cables, while perforated or wire mesh trays are lighter and cheaper.

Size and Length: Larger trays or longer runs increase the per-meter cost. Surface Finish: Powder-coated trays provide extra protection and color options, slightly increasing the price. For bulk orders, suppliers often offer discounted rates, which can significantly reduce the per-meter cost.
