10kW High-Frequency Switching Power Supply for Local Area Network Use

Overview

The TDST-10000 Series of Rugged, High Power AC-DC power supplies provides highly regulated output power to 10kW.

Key Takeaways

High-frequency 10kW switching power supplies offer high efficiency, modularity, and flexible DC output, making them suitable for powering LAN and industrial network systems.

Key Features

High Efficiency and Power Density: Modern 10kW high-frequency switching power supplies, such as the MEAN WELL SHP-10K series, achieve up to 97% efficiency, reducing energy loss and heat generation, which is critical for continuous LAN operation in data centers or industrial environments. High power density allows installation in standard 19-inch rack cabinets (
