12-position high-voltage distribution box

Overview

DFW type cable distribution box without switch is outdoor high voltage electrical equipment with 12kV rated voltage, 630A rated current,whose cabinet with 2 mm stainless steel, durable, for receiving and distribution of power purposes. View the TI High-voltage power distribution box block diagram, product recommendations, reference designs and start designing. The inner cavity is filled with SF6 gas of 0. lt has three stations of. Features & Applications:it is a kind of outdoor device (three-phase AC frequency: 50Hz; rated voltage: 12kV). It features small volume, compact structure, beautiful sculpture, waterproof, dustproof and corrosion resistance. It applies to power distribution system in urban industrial area, residence. Global Recycled Standard (GRS) certified products contain recycled content that has been independently verified at each stage of the supply chain, from the source to the final product and meet social, environmental, and chemical requirements. Anti harsh environment, anti condensation, frost, fog, salt.
