How much does optical fiber cable cost in Southern Europe

Overview

A significant price divergence emerged in 2024, with the regional export price averaging $20,329 per ton and the import price at $16,685 per ton, influenced by product mix, logistics, and sourcing strategies. CRU provides comprehensive, accurate and up-to-date price assessments and research reports for bare optical fibre across various key regional markets, combined with insights into the factors and events affecting markets. Within it, you will discover the latest data on market trends and opportunities by country, consumption, production and price developments, as well as the global trade (imports and exports). In some cases, suppliers only guarantee quotations for the same day, and in extreme situations even half-day quotations are appearing in the market. For many professionals who have worked in the optical.
