# Cuba Low-Carbon Cable Tray Price Inquiry

## Overview

Price List Cable Tray 2024 - Free download as PDF File (.pdf), Text File (.txt) or view presentation slides online.

## Key Takeaways

Low-carbon cable trays in Cuba typically range from $2 to $25 per meter, depending on material, type, and order quantity.

### Price Overview

The cost of cable trays in Cuba varies based on material, size, type, and surface finish. Low-carbon steel trays, often used for industrial and commercial applications, are generally on the lower end of the price spectrum, while aluminum or coated trays cost more due to corrosion resistance and lightweight properties. Typical prices per meter range from $2 to $25, with bulk orders or large projects potentially reducing the per-meter cost significantly (Cable House, Apex Tray).

### Factors Affecting Price

Material: Galvanized steel: Durable and cost-effective, commonly used in Cuba. Aluminum: Lightweight and rust-proof, higher upfront cost. Plastic trays: Budget-friendly but unsuitable for heavy loads.

Coating and Finish: Hot-Dip Galvanized (HDG): More expensive, ideal for outdoor or corrosive environments.

## Pre-

Galvanized (PG): Cheaper, suitable for dry indoor areas. Powder coating: Adds protection and color options, slightly increasing cost. Tray Type: Ladder trays: Support heavy cables, higher cost.

Wire mesh trays: Lightweight, ideal for data centers, lower cost. Solid or perforated trays: Price varies with load capacity and ventilation needs. Installation and Logistics: Labor, shipping, and site conditions in Cuba can influence the final cost.

Open tray designs reduce installation time and labor compared to conduit systems, potentially saving 40–60% of total project costs (Cable Tray Fab).

## Suppliers in Cuba

Cable House: Offers a wide range of cable trays with competitive pricing and international shipping options. They emphasize durability, reliability, and compliance with industry standards (Cable House).

B2

B Marketplaces: Platforms like ThomasNet and Legrand provide access to international suppliers who can ship to Cuba, offering bulk pricing and customization options (B2B Headlines).

## Cost-

## Saving Tips

Opt for pre-galvanized steel for indoor projects to reduce material costs. Use wire mesh trays for lightweight cabling to save up to 15% compared to ladder trays. Consolidate orders to benefit from bulk pricing and reduce shipping costs.

Consider local suppliers to minimize import duties and logistics expenses. In summary, for low-carbon cable trays in Cuba, expect $2–$25 per meter, with the final price influenced by material, coating, tray type, and installation requirements. Engaging local suppliers like Cable House or international distributors can help secure competitive pricing and ensure compliance with project specifications.
