201 Mesh Cable Tray Manufacturer

Overview

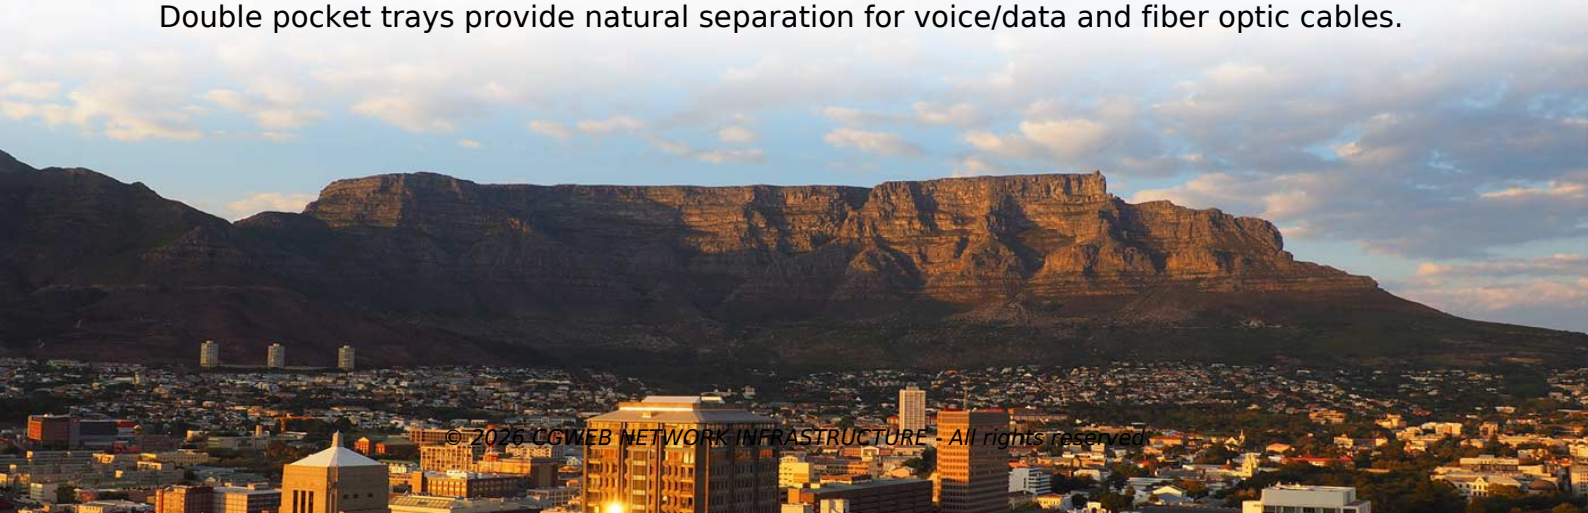

Snake Tray manufactures cable trays, power distribution solutions and cost-effective cable management systems for data centers, solar installations, transit & more.

Key Takeaways

The 201 Series Snake Tray is a leading wire mesh cable tray system, manufactured by Snake Tray, with additional options available from VALDINOX and Cablofil. Snake Tray – 201 SeriesThe 201 Series Snake Tray is a highly versatile, labor-saving cable tray system suitable for both overhead and under-floor installations. It can be mounted below access floors, on walls, or suspended from ceilings using threaded rods.

The system is available in multiple sizes, including single and double pocket designs, accommodating up to 510 cables or 50 square inches of cable path in the double tray configuration, and up to 24 square inches in the single tray. Key features include: Bendable design: The patented top-mounted center spine allows easy hand bending for horizontal and vertical turns without special tools. Flexible installation: Compatible with wall brackets, under-floor stanchions, and suspended applications using Snake Eyes™ mounting rings.

UL-listed connectors: Only one connector bolt (CM-CB-10 or CB-12) is required to join trays, ensuring mechanical and electrical continuity. Separation of cable types: Double pocket trays provide natural separation for voice/data and fiber optic cables.

VALDINOXVALDINO

X specializes in wire mesh cable trays, supports, and accessories, offering custom-made solutions for diverse environments. Their trays are designed for fast, reliable installation and enhanced safety, leveraging the elastic properties of steel for strength and durability.

VALDINO

X emphasizes customer-oriented service, including compliance with project-specific requirements and rapid delivery. Cablofil (Legrand)Cablofil, part of Legrand, is a global provider of wire mesh cable trays and ladder systems. Their products are widely used in data centers, industrial, and commercial projects.

Cablofil offers prefabricated assemblies, fasteners, and modular systems that reduce installation time and ensure reliable cable management. Their wire mesh trays are designed for quick deployment and adaptability to complex layouts.

Summary

For the 201 Mesh Cable Tray, the primary manufacturer is Snake Tray, known for its bendable, flexible, and high-capacity 201 Series. Alternative manufacturers of wire mesh cable trays include VALDINOX and Cablofil, which provide robust, customizable solutions suitable for industrial and commercial applications. These manufacturers offer a range of sizes, installation options, and accessories to meet specific project requirements.
