288-core quad-network integrated optical distribution box

Overview

The OHC 288 houses 48 feed/pass-thru adapters and 288 distribution adapters for fiber distribution to high density buildings with many potential subscribers. OHC are constructed from powder-coated aluminum that is both durable and lightweight. The unit can be quickly installed by a. Optical Hub Cabinets (OHC) provide fiber distribution to subscribers from a compact, environmentally protected outdoor terminal. These PON terminals have space for multiple. Ningbo GLGW Nova Material Co. serves as the overseas service center of Zhejiang Shiteng Technology Group Co., a national high-tech enterprise founded in 2009 and headquartered in Ningbo—home to the world's largest port. Can I customized the products?

A: some products are customized, any specification will be accepted. Please kindly tell our your request. It is mainly used for connecting the outdoor optical cables, optical patch cords and optical pigtails.
