48-port Category 6 network patch panel

Overview

This 48-port universal 568A/B Category 6 rack mount patch panel is designed to take up a single rack space (1U), making it a compact and efficient solution for your network needs. The patch panel performance exceeds the TIA Category 6 Patch Panel Standards and supports data rates up. Our Category 6 Patch Panels meet and exceed the latest standards in accordance with TIA/EIA 568-B. 2-1 and effectively double the bandwidth of standard Category 5e panels. Check each product page for other buying options. Patch panels include patented Retention Force Technology which promotes consistent performance over the life of the system. Installer-friendly design allows for quick installation due to standard. Ensure high-performance network connectivity with ICC's 48-Port CAT6 Patch Panel, designed for Gigabit Ethernet applications.
