Price of large outdoor waterproof distribution boxes

Overview

Distribution Box,Outdoor Waterproof Electrical Junction Box The Electrical Junction Box Is Crafted From High-Quality Galvanized Steel, Providing Excellent.

Key Takeaways

Large outdoor waterproof distribution boxes typically range from $50 to over $500 depending on size, material, and number of circuits.

Price Overview

The cost of outdoor waterproof distribution boxes varies widely based on size, material, IP rating, and number of circuits. Smaller units (e.g., 4–12 ways) may start around $50–$100, while larger units with 24–54 ways or advanced features can cost $200–$500 or more. Wholesale or bulk purchases from suppliers like Alibaba may offer lower per-unit prices for large-scale installations.

Key Factors Affecting Price

Material: High-grade ABS plastic is common for corrosion resistance and impact strength, while metal enclosures (galvanized or stainless steel) are more expensive but offer higher durability.

I

P Rating: IP65 or higher ensures dust-tight and water-resistant protection. Higher ratings like IP66/IP67 increase cost due to enhanced sealing and weatherproofing. Number of Circuits: Distribution boxes range from small 4-way units to large 54-way panels.

More circuits increase both size and price. Additional Features: Transparent covers, DIN-rail compatibility, surge protection, and ease of installation can add to the cost.

Where to Buy

Amazon: Offers ABS waterproof boxes in various sizes, typically $50–$200 for medium to large units.

OOHMAG

E: Provides 4-way to 54-way outdoor distribution boards with IP65 waterproofing, suitable for residential, commercial, and industrial use, with prices scaling according to size and features. Alibaba: Wholesale options for customizable outdoor distribution boxes, ideal for bulk purchases or specialized industrial setups.

Recommendations

When selecting a large outdoor waterproof distribution box, consider IP rating, material durability, number of circuits, and compliance with local electrical codes. Investing in a slightly higher-priced, certified unit can reduce maintenance costs and improve safety in outdoor environments.
