Applications of Singapore U-shaped cable trays

Overview

These robust, U-shaped metal trays are designed for heavy-duty industrial applications. Established in 2009, United U-Li Projects Pte Ltd carry a comprehensive range of high quality cable trays, trunkings, cable ladders, conduits, fittings, floor trunking systems and all assembly systems for use in diversified industries projects in Singapore. One of the most prevalent cable management systems in Singapore, C-string racks (also known as cable trays) are typically constructed from steel or aluminum and mounted on ceilings or walls. Cable Tray and Ladder, Cable Trunking, Wire mesh Basket Tray – Comply to IEC 61537, NEMA VE-1 and SS249. Available in various Metallic Material such as Stainless Steel 304 / SS304, 316 / SS316, 316L / SS316L, Hot Dipped Galvanized HDG. Since our inception in 1992, we have proudly established ourselves as one of Singapore's leading specialists in cable support systems. Their open structure makes them easy to install around obstacles and ideal for environments where cable routing needs to adapt to complex layouts.
