Argentina Cable Tray Ladder Type

Overview

The ladder-type cable tray is designed with two long side rails that are connected by evenly spaced rungs, resembling a ladder. This structure is especially useful for supporting heavy-duty cables over long distances. Our cable trays are designed to efficiently and securely route and support electrical cables, control cables, data cables, and fiber optic cables. Explore our full collection of Metallic Ladder 3D Drawings, including horizontal fittings, vertical fittings and metallic tray. A series reflects connected component products for individual purchase. Straight sections are available in multiple heights, lengths and widths. Learn about ladder, perforated, solid-bottom, wire mesh, and channel trays in this complete guide.
