

Brazilian cast aluminum explosion-proof distribution box model

Overview

The BR-3 explosion-proof distribution box is a standard explosion-proof power distribution device specifically designed for electric heat tracing systems. When your van or small trailer stays hot because the factory AC barely moves air, this 15,000 BTU rooftop unit adds 360-degree non-ducted airflow and quieter 54 dB operation so you can cool the cabin without shouting over the fan. It features a sturdy aluminum alloy enclosure, provides multiple protections against overload, short circuit, and ground leakage, and can. Atexdelvalle offers world-class explosion-protected solutions guaranteeing highest quality and performance with no compromise. Manufacture custom made Local Control Stations & Distribution Boxes, local control panel boards and stations, explosion protected control units, distribution. Atex Delvalle provides a custom made facility for hazardous area stainless steel Aisi 304L & Aisi 316L Atex and IECEx Certified junction boxes, terminal boxes, large atex enclosures, Empty enclosures. The Ex junction boxes that we have in stock ready to same day shipping, the full customized. Supermec ATEX Junction Box & Enclosures are designed to satisfy most of our clients' requirements for CONTROL explosion-proof and flameproof enclosures. All explosion-proof enclosures, lighting or power distribution boxes are manufactured using the latest technologies, both mechanical and. ·Flameproof enclosure (Ex db), which can be used as feed distribution equipment in control and distribution system (such as distribution box, switch box of main circuit, control box, terminal box or motor starting box etc.) Enclosure: 304 stainless steel, 316L stainless steel and Q235.
