Cable tray prices and elbows

Overview

Cable trays Cable trays Cable tray, angle 90, T-piece, wall bracket, crossing, top customer service, top prices and fast delivery at Ekabel24.de Cable Tray.

Key Takeaways

Cable tray elbows are available from around $1. 3 each, with prices varying by material, size, and supplier.

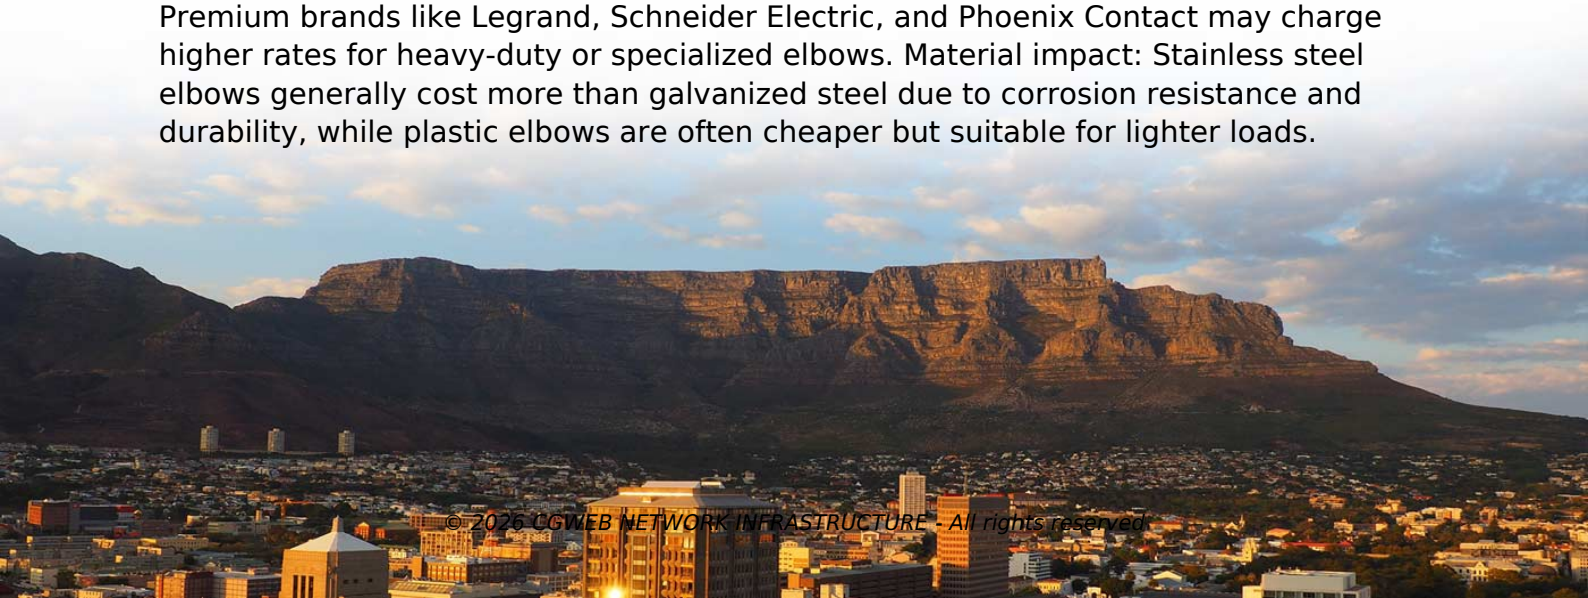

Overview

Cable tray elbows are essential fittings used to change the direction of cable trays in electrical installations, ensuring organized and safe routing of cables. They are available in galvanized steel, stainless steel, and halogen-free plastic, suitable for industrial, commercial, and residential applications.

Price Range

Bulk pricing: Approximately $1. 3 per elbow for standard galvanized or stainless steel options, ideal for wholesalers or large projects. Retail or branded options: Prices may vary depending on the manufacturer, material quality, and load capacity.

Premium brands like Legrand, Schneider Electric, and Phoenix Contact may charge higher rates for heavy-duty or specialized elbows. Material impact: Stainless steel elbows generally cost more than galvanized steel due to corrosion resistance and durability, while plastic elbows are often cheaper but suitable for lighter loads.

Purchasing Considerations

Duty rating: Heavy-duty elbows are more expensive than medium or light-duty options. Size and angle: Larger or custom-angle elbows may increase the price. Compliance: Ensure elbows meet standards such as DIN EN 61537 or equivalent IEC standards for safety and performance.

Supplier options: Online suppliers like Alibaba offer bulk pricing, while distributors like RS Components and Orion Air Sales provide a range of branded and certified products.

Summary

For budgeting purposes, expect cable tray elbows to start around $1. 3 each, with prices increasing for premium materials, larger sizes, or specialized fittings. Bulk purchases can significantly reduce per-unit costs, making them cost-effective for industrial or large-scale installations.
