Comoros Spectrometer

Overview

The portable 5-inch touchscreen allows for easy handling, making it ideal for fieldwork or lab use without sacrificing functionality or convenience. With a wavelength range from 380-780nm, this device effectively analyzes various light sources, catering to diverse color and light. R3 RotrOil spectrometer instrument is a compact, transportable and easy to use optical emissionspectrometer designed specifically to determine trace concentration in wear metals, polluting. GNR Analytical Instruments Group, thanks to its 30 years of experience and innovation, is a worldwide. Find the latest exports, imports and tariffs for Analysis instruments: Viscosity, porosity, spectrometers trade in Comoros. SpectrOil M Series is a precision rugged RDE-OES elemental analyzer for lubricants, fuel, coolants and water. Additionally, experts from the Reunion Observatory provided technical training to operators. The Union of the Comoros is an archipelagic state consisting of four islands located in the western Indian Ocean approximately 200km east of the African continent and approximately 420km north of Madagascar.
