Current Status of Optical Cable Line Construction in Kenya

Overview

This project is presently in an intermediate phase of implementation with collaboration from ICT Authority and Kenya Power, with the latter's infrastructure being used to fast-track deployment. Kenya's fibre optic expansion is the most important project in Kenya's ambitious Digital Superhighway plan. This undertaking is dubbed as the Daraja Fibre Optic Cable. Project name: Daraja, which means “bridge” in Swahili. Purpose: To build a new, high-capacity subsea fiber optic cable to improve internet speed. ICT Authority Board of Directors chairperson Lilly Ng'o (2L), the Authority's acting CEO Zilpher Owiti with other board members and members of Authority's management during an induction exercise at a hotel in Machakos county on September 26, 2025. The government has pledged to install 100,000. The Kenyan government has announced a new World Bank-funded infrastructure project to install a high-capacity fibre optic cable along the Isiolo–Mandera corridor, aiming to boost digital connectivity in northern Kenya and strengthen cross-border links with Ethiopia and Somalia. In a notice dated. ICT Standards will be reviewed annually. The Standard Review Board will consider the requests during their quarterly meetings and if appropriate recommend them to be incorpor.
