Czech underground 24-core optical cable

Overview

1 and RDSO/SPN/TC/110/2020 Rev. 0 standards, it features 24 single-mode fibers, corrugated steel armor, and UV-resistant HDPE sheath. Designed for underground ducting and direct burial, it ensures long-distance data transmission with minimal loss. Complex and clear catalogs of all our standard optical and metallic cables. High-quality SC-SC single-mode (mono-mode) Loose Tube installation outdoor cable for laying in a tube above- or underground. Black multi-purpose cable with twentyfour cores, rodent protection and pulling aid on both ends. From a length of 100 meters, the fiber optic outdoor cables will be supplied. Corning ALTOS® all-dielectric gel-free cables are designed for outdoor and limited indoor use for backbones in lashed aerial and duct installations. The loose tube gel-free design is fully waterblocked using craft-friendly, water-swellable materials, which means cable access is simple and no clean. Durable and Weather-Resistant Design: The 24 core optical fiber underground UG cable is designed to withstand harsh outdoor conditions, operating within a temperature range of -40°C to -70°C, making it an ideal choice for applications in extreme environments. Our ruggedized portfolio delivers reliable, mission-ready fiber.
