

Dimensions of Distribution Network Automation Grid Cable Management Frame

Overview

Standards:UL 508A Standard for Industrial Control Panels, cUL Listed per CSA, UL Type 4/12 and IP66 Rated Dimensions:48. 95"D (1233mm x 600mm x 761mm)

Mounting:Wall mount
Chatsworth Products, a global innovator in cable management solutions, introduces DistributionFrame, a high-quality Intermediate Distribution Frame (IDF) cabinet solution engineered for years of dependable service. Network and automation cabling represent a significant investment in any building. Corning offers frame and cable management product drawings in PDF, DXF, VSS, and BIM object formats. The IDF shall be thermally and spatially validated for use in environments up to 50°C. Pre-Configured Industrial Distribution Frame (IDF) key features and benefits
Pre-Configuration: Reduces time required for planning, designing, procurement, and installation resulting in 25% faster implementation
Defined equipment locations and cable routings: Incorporate Panduit developed best.

MIT Design Standards

All equipment racks should have two 10 inch vertical cable managers, one cable manager per side. This may change depending on cabling densities, but any deviation from this standard should be
