

Fiber Optic Cable Line Tools Manufacturer

Overview

Top industry brands include Paladin Tools, Corning Fiber Products, Miller – Ripley Tools, AFL, FiberXP and Jonard.

Key Takeaways

Leading manufacturers of fiber optic cable tools include Jonard Tools, CommScope, Specialized Products, Foss, and Fibretool, offering a wide range of installation, maintenance, and testing equipment.

Key Manufacturers and Their Offerings

Jonard Tools provides a comprehensive range of fiber optic tools, including hand strippers like the JIC-125, fiber cleavers such as the FC-220, multi-function OTDR testers, connector cleaning kits, mid-span slit and ring tools, and thermal strippers capable of handling various fiber diameters and coatings.

Comm

Scope offers tools and components for fiber cable installation, repair, and maintenance, including prep and termination kits suitable for professional telecom and datacom applications. Specialized Products stocks tools from top brands like Paladin Tools, Corning Fiber Products, Miller – Ripley Tools, AFL, FiberXP, and Jonard. Their catalog includes fiber cleavers, crimpers, cable strippers, mid-span access tools, scribes, and connector crimping accessories for a variety of connector types such as SMA, ST, SC, LC, FC, and MTRJ.

Foss supplies professional fiber optic tools for precise installation, splicing, and maintenance. Their offerings include buffer tube splitters, cable strippers, connector cleaners, and test equipment, designed for efficient and reliable fiber network work. Fibretool (Shanghai Fibretools Technology Co., Ltd.) is a manufacturer providing fiber optic tool kits and related products, with a focus on international exhibitions and product catalogs for professional fiber optic applications.

Types of Fiber Optic Tools

Strippers and Cleavers: For precise removal of fiber coatings and clean fiber endfaces. **Crimpers and Connector Tools:** For terminating connectors and mechanical splices.

Mid-

Span Access Tools: For accessing fibers within cables without full cable cuts. **Cleaning Kits:** Including pen-type cleaners, wet/dry wipes, and fluid dispensers for optical connectors. **Test Equipment:** OTDRs and multi-function testers for network verification and troubleshooting.

These manufacturers and brands provide a wide selection of tools suitable for telecom, datacom, IT, and professional fiber optic technicians, ensuring high-quality performance and reliability in fiber optic network installation and maintenance.
