Fiber Optic Cable Splice Covering Clamp

Overview

The FIB fiber optic clamp is designed to prevent the optical fiber from pistoning inside buffer or cable jacket during fusion splicing. Designed by a by a fiber splicer with 25 years experience in the field, FasClamp and FasclampXL can be used in any splicing vehicle, trailer, or table mounted. The Fiber Reaper isn't just another fiber optic cable clamp—it's the BEST on the market! The innovative design on the Fiber Reaper takes a whole new approach to the fiber optic cable splicing clamp. Engineered for fast installation and long-term durability, the FOSC portfolio—including modular solutions with gel-sealed. Keep cables secure and enclosures from moving around while preparing and splicing. Easy open clamp with bull nut that spins freely to tighten.
