Fiber Optic Junction Box OEM Manufacturer

Overview

Find your fiber optic junction box easily amongst the 64 products from the leading brands (HS, LAPP, Cahors, ...) on DirectIndustry, the industry specialist for your professional purchases.

Key Takeaways

Leading OEM manufacturers of fiber optic junction boxes include Fibermint, GETEKnet, and JUNPU, offering customized solutions, factory-direct pricing, and global shipping.

Key OEM Manufacturers

Fibermint is a China-based manufacturer specializing in fiber optic splice closures, distribution boxes, and terminal boxes. They provide OEM/ODM solutions, on-time delivery, and factory-direct pricing, catering to telecom operators, system integrators, and government projects. Their products support modern optical networks, including 50G PON deployments, and are designed for durability and efficient installation.

GETE

Knet offers customized fiber optic closure, distribution box, and terminal box solutions with strict quality control. They focus on delivering tailored OEM products to meet specific network requirements, ensuring reliable performance in both indoor and outdoor environments.

JUNP

U provides a wide range of fiber optic communication equipment, including splice closures, distribution boxes, and FTTH solutions. With over 13 years of OEM/ODM experience, JUNPU emphasizes durable materials, compact design, and seamless connectivity, suitable for various connector types and environmental conditions. They also offer factory-direct shipping and certified quality products.

Product Features and Applications

Fiber optic junction boxes from these OEM manufacturers typically include: Splice closures for protecting and organizing optical fibers. Distribution boxes for managing multiple fiber connections and splitters. Terminal boxes for connecting optical nodes to end-user equipment.

Durable materials such as ABS or reinforced plastics for indoor/outdoor use. Bend radius control and strain relief to maintain signal quality. Scalability to accommodate network expansion and multiple fiber cables.

These boxes are widely used in FTTH, FTTx, and ODN networks, supporting high-speed broadband, 5G backhaul, and large-scale telecom infrastructure projects. Considerations for Choosing an OEMWhen selecting a fiber optic junction box OEM manufacturer, consider: Customization capabilities for specific network designs. Compliance with IP ratings (e.g., IP65/IP68) for environmental protection.

Global shipping and delivery timelines. Experience with large-scale deployments and compatibility with modern PON technologies. After-sales support and technical guidance for installation and maintenance.

By partnering with established OEM manufacturers like Fibermint, GETEKnet, or JUNPU, telecom operators and system integrators can ensure high-quality, reliable, and scalable fiber optic network solutions.
