Fiber optic switch cabling price

Overview

Fiber Optic Switches, Multiplexers, DemultiplexersShop DigiKey's large in-stock selection of Fiber Optic Switches, Multiplexers, Demultiplexers. View inven.

Key Takeaways

Fiber optic switch cabling costs vary widely, with fiber optic cables ranging from $0. 09 to $6 per foot and fiber optic switches starting around $100 to several thousand dollars depending on specifications.

Fiber Optic Cable Pricing

The cost of fiber optic cabling depends on fiber type, strand count, and construction. Single-mode fiber typically costs $0. 10 to $0.

50 per foot, while multimode fiber ranges from $0. 30 to $1. 00 per foot.

Higher strand counts increase costs proportionally; for example, a 12-strand cable runs about $0. 50 per foot, and a 24-strand cable can reach $1. 00 per foot.

Specialized cables, such as armored or plenum-rated cables, can cost $0. 50 to $5 per foot. Pre-terminated assemblies and patch cables are more expensive due to factory termination and connector types.

Large commercial installations with 100–200 network drops can range from $15,000 to $30,000 including materials and installation.

Fiber Optic Switch Pricing

Fiber optic switches vary based on port count, speed, and features. Basic unmanaged switches with a few fiber ports may start around $100–$200, while high-performance managed switches with 10G or modular SFP ports can cost $1,000 to $5,000 or more. Industrial-grade switches with PoE support or ruggedized construction are typically at the higher end of the price range.

Vendors like Versitron, DigiKey, Amazon, and Newegg offer a wide selection of switches for both commercial and industrial applications.

Factors Affecting Total Cost

Fiber Type: Single-mode vs. multimode affects both cable and equipment cost. Strand Count: More strands increase cable cost. Installation Environment: Indoor, plenum, armored, or underground installations impact pricing.

Switch Features: Managed vs. unmanaged, port count, SFP compatibility, and PoE support.

Pre-

Termination: Factory-terminated cables are more expensive but reduce installation labor. For a typical small to medium network, expect cabling costs of $1–$3 per foot and switches ranging from $200 to $2,000, while large enterprise or industrial setups can significantly exceed these amounts.
