Fiber-to-the-home 100Mbps switch

Overview

Compact switch with fiber uplink for harsh environments. One 100-Mbps fiber port and 4 10-/100-Mbps RJ45 switch ports. Suitable for dusty or dirty environments with a temperature range between -13 and +140º F (-25 to +60º. Discover fiber switches designed for reliable network connectivity. 5G, and gigabit options to expand your bandwidth. Fiber interface is MM, ST, 2km range. This switch allows users to simply plug any port to either a 10Mbps Ethernet or 100Mbps Fast Ethernet network for compatibility, convenience and faster connection. Need help?

A network switch with fiber uplinks lets you break past the 100-meter limit of copper Ethernet, connecting distant buildings, server racks, or high-bandwidth cameras with zero signal degradation. The real challenge is picking the right port count, SFP speed tier, and management features without. MarStars manufactures a wide range of fiber optic switches that provide links for your 10Base, 100Base, 1000Base Gigabit, and 10 Gigabit networks simultaneously with fiber uplink ports or all fiber switches, commercial grade, managed and unmanaged and PoE enabled. Various port sizes are available.
