International Manufacturers and Suppliers

Clusterasia Corp – Produces fiber optic cable pulling traction machines suitable for buried pipelines and overhead installations. Their machines feature a traction device, gasoline-powered engine, and control system with variable speed, forward/backward control, and cable guide limiters. Zhengzhou Zhishi Changyun Technology Co., Ltd. – A Chinese manufacturer specializing in optical cable tractors, cable conveyors, and related equipment.

They have a modern factory, multiple patents, and offer international shipping. Alibaba Suppliers – Various high-performance fiber optic cable pulling machines are available for purchase online, with specifications such as 300 kg traction capacity and speeds up to 1. 5 m/s, suitable for different cable installation projects.

Recommendations

For purchasing equipment, consider contacting international manufacturers like Clusterasia or Zhengzhou Zhishi Changyun Technology, as they can ship to Fiji. For installation, maintenance, or operational support, local companies like Datec Fiji or FNE Communications can provide skilled technicians and guidance. Ensure that the machine specifications match your project requirements, including cable diameter, traction capacity, and installation environment (buried or overhead).

By combining international equipment sourcing with local technical support, you can efficiently implement fiber optic cable projects in Fiji.
