Finished 135-degree elbow cable tray

Overview

The Trough Type 135° Horizontal Elbow is a core accessory of the trough cable tray system, specially engineered to achieve a 135-degree horizontal direction change for horizontal trough cable trays. In need to create an elbow that starts at a right angle and that has the ability adopt the angle of the routing of the cable tray. I have attached a few pictures with examples. Whether you are a DIY enthusiast, electrician, or metalworker, this tutorial will help you create cable tray elbows like a pro. It guides cables to turn smoothly at a 135° angle in the horizontal plane, standardizes wiring. Cable Trays are designed to meet most requirements of cable and electrical wire installations and comply to local and international standards of fabrications and finishes. SFSP cable trays and accessories from SFSP are manufactured from steel sheets in accordance with BS EN 10130/BS EN 10131/ BS EN. TECHNOLOGIES Produce a complete range of cable trays as an engineered product, on a regular basis.
