Fmx distribution box

Overview

The system provides reliable switching, protection, metering and distribution of electrical energy up to 24 kV and 2000 A. Power Xpert FMX consists of metal-enclosed modular compact panels of minimum 500 mm. The desk panel is held open by a pneumatic panel stay to ensure convenient access. Optional plinths may be added to raise the console height by up to 200mm for cabling. FMX Junction Box (JIC) Enclosure, for mounting MCB1s and other modular components with DIN 43 880 standard profile, IP65, pre-installed DIN rail, 4 Slot 150x170x100 mm (EC62004) FMX Junction Box (JIC) Enclosure, for mounting MCB1s and other modular components with DIN 43 880 standard profile, IP65. Our flexible distribution boxes enable reliable, decentralized signal transmission and power transmission up to protection class IP67 – wherever passive distribution boxes are required.
