Georgian Steel Cable Tray Prices

Overview

Georgian Corrosion Cable Tray Prices Buyers & Importers. Sell Georgian Corrosion Cable Tray Prices in bulk to verified buyers and importers. Connect with.

Key Takeaways

Steel cable trays in Georgia typically range from $2 to $25 per meter, depending on material, type, and coating.

Price Range and Factors

The cost of steel cable trays varies widely based on material and design. Standard galvanized steel trays are the most common, offering a balance of durability and affordability, while stainless steel trays resist corrosion but are more expensive. Aluminum trays are lightweight and rust-proof but cost more than steel.

Ladder-type trays, which support heavier cables, are priced higher than perforated or wire mesh trays, which are suitable for lighter loads (Apex Tray). Coating and finish also affect price: Hot-dip galvanized (HDG) provides long-term outdoor durability but costs more upfront. Powder-coated trays offer wear protection and color options.

Pre-galvanized trays are cheaper but less durable in corrosive environments.

Standard Sizes

Most steel cable trays are sold in standard lengths of 2. 4 meters, with pricing per piece or per meter depending on supplier. Width, height, and load capacity also influence cost, with heavy-duty trays being sturdier and more expensive.

Bulk Orders and Local Considerations

For bulk purchases, suppliers often offer discounts, which can significantly reduce the per-meter cost. Shipping and labor costs in Georgia may also affect the final price, especially for heavier steel trays. Local suppliers or distributors may provide additional pricing options and installation services.

Summary

In Georgia, expect steel cable tray prices to range from $2 to $25 per meter, with ladder-type, HDG, or stainless steel trays at the higher end. For accurate quotes, it is recommended to contact local suppliers with specifications including tray type, length, width, and coating requirements.
