High Voltage Cable Tray FCT

Overview

FCT FRP Cable Trays are made of corrosion resistant fibre reinforced plastic. The design delivers weight reductions while maintaining strength and maximising loading capability. The Cable Trays are available in five different resin materials, each formulated to satisfy special. HDT steel cable tray, for heavy duty job, comes in standard height of 50 and 100mm. Unlike low-voltage installations, high-voltage cable tray systems must handle higher current loads, greater heat generation. From anchoring solutions for transformers and heavy equipment to installing supports for high-voltage cables, we offer rigorously tested, reliable systems used in substation projects globally. The Cable Tray ng standards, performance standards, test standards and application in this document have been tested extens ompetent professional en completely installed, without damage either to conductors or. Thorne & Derrick International distribute the most extensive range of Cable Pulling & Cable Laying Equipment to enable the installation of low, medium and high voltage power cables into underground trench or duct – products also supplied for fibre optic blowing, subsea trenching, offshore umbilical.
