How many years is the warranty for H3C core switches

Overview

Subject to applicable Law,H3C provides a maximum of 5-year hardware limited lifetime warranty for pointed WLAN AP products and box switch products.

Key Takeaways

H3C core switches generally come with a standard one-year warranty, with certain models eligible for extended hardware warranty up to five years. Standard WarrantyH3C enterprise hardware products, including core switches, are typically covered by a one-year standard warranty from the starting date, which is either the date of delivery from H3C or, in the case of resale, within 90 days of the original delivery date. During this period, H3C provides support for hardware defects under normal authorized use, including repair or replacement of defective components.

Extended and Limited Lifetime Warranty

Certain H3

C core switch models may qualify for extended warranty coverage up to five years or limited lifetime warranty, depending on the product line and local regulations. For example, box switch products and specific WLAN APs can receive a maximum five-year hardware limited lifetime warranty, which includes business-hour remote support and warranty parts shipment within 10 business days after RMA confirmation. Accessories such as hot-swappable fans, power supply units, and optical modules typically have a 12-month warranty.

Warranty Start Date and Conditions

The warranty period starts on the earlier of the 90th day after product shipment or the date H3C receives a service request for the product. Warranties are non-transferable and apply only to the original end-user customer in the country or region of purchase. Local laws and regulations may adjust the warranty terms, so it is recommended to consult your local H3C service sales representative for precise details.

Additional Options

Beyond the factory warranty, H3C offers H3Care foundation services, which provide enhanced support, including faster response times, advance hardware replacement, and extended service levels. These services can supplement the standard warranty for critical enterprise deployments. In summary, H3C core switches are covered by a one-year standard warranty, with the possibility of extended coverage up to five years or limited lifetime support for certain models, subject to local regulations and service agreements.
