How much does a fiber optic cable pulling machine cost with free shipping

Overview

Fiber Optic Cable Puller Explore a wide range of our Fiber Optic Cable Puller selection. Find top brands, exclusive offers, and unbeatable prices on eBay.

Key Takeaways

A new fiber optic cable pulling machine typically costs around $27,000, with prices varying based on type, power source, and included accessories.

Price Overview

The average purchase price for a fiber optic cable puller is approximately $27,304, though this can vary depending on the brand, model, and whether it is new or used. Financing options are also available, with typical monthly payments around $514 for a 60-month lease. Rental options exist as well, ranging from $300/day to $3,075/month.

Types of Machines

Fiber optic cable pulling machines come in several types, each suited for different applications: Hydraulic machines: High pulling force for long-distance underground installations; ideal for urban infrastructure and large telecom networks. Electric motor-powered machines: Precise control over speed and torque; suitable for indoor conduits, data centers, and structured cabling projects. Hand-operated machines: Simple crank or lever design; effective for short-distance pulls or tight spaces.

Diesel-powered machines: High pulling power independent of electrical infrastructure; suitable for remote or outdoor installations.

Factors Affecting Cost

Several variables influence the price of a fiber optic cable pulling machine: Build quality and materialsMotor power and pulling forceIncluded accessories (capstan, mounts, hydraulic power source)Brand reputation and after-sales supportCountry of manufacture and shipping logisticsPackages and AccessoriesComplete jobsite setups often include the puller, foot control, hoses, capstan, puller mount, and hydraulic power source. Each component may be purchased separately, which can affect the total cost.

Shipping Considerations

While free shipping is not always guaranteed, many suppliers provide quotes including delivery options. It is recommended to request a quote from multiple suppliers to compare prices and shipping terms, ensuring the best deal for your location. In summary, expect to pay around $27,000 for a new fiber optic cable pulling machine, with additional costs for accessories and shipping unless explicitly included.

For precise pricing and free shipping options, contacting suppliers directly is the most reliable approach.
