Indoor electrical distribution box enclosure

Overview

Indoor electrical junction boxes are made from durable ABS plastic or sturdy aluminum. As a specialized manufacturer of indoor electrical enclosures, cabinets, and accessories for the electric equipment industry, DOHO supplies quality products at competitive prices to customers worldwide. With years of experience and continuous efforts on product innovation and development as well as. A distribution box is a low-voltage electrical enclosure that receives incoming power and distributes it safely to multiple outgoing circuits through protective and switching devices such as MCBs, RCDs, RCBOs, fuses, isolators, busbars, neutral bars, earth bars, and surge protective devices. Ideal for housing electrical components, wiring, control panels, and instrumentation, these enclosures are available in various materials and configurations to suit. E•Box has been manufacturing UL rated electrical enclosures for over 35 years. What sets us apart is our extremely low lead times, desire to make customs and our vast selection of finished goods inventory.
