Jamaica Outdoor Power Distribution Box Specifications and Models

Overview

Power Distribution Units – Accupower Jamaica LimitedAPC AP9551 Rack PDU, Basic, Zero U, 20A, 120V, (14)5-15 Add to Quote Accupower Jamaica Limited Jamaica.

Key Takeaways

Outdoor power distribution boxes in Jamaica are designed for safety, durability, and weather resistance, with options ranging from AC distribution boxes to IP65-rated and GFCI-protected units. Key Models and Specifications1.

Jamaica Power AC Distribution Boxes

Purpose: Distribute alternating current from a main source to multiple circuits. Applications: Residential, commercial, and industrial projects. Safety Features: Protects circuits from overloads, short circuits, and electrical faults.

Durability: Constructed with high-quality materials to withstand tough environments. Efficiency: Ensures stable power delivery to multiple circuits or devices. 2.

J&HW Group Outdoor Power Distribution BoxesWeatherproof Rating: IP65, protecting against water, dust, and environmental hazards. Construction: Corrosion-resistant materials, including sheet metal and fiberglass-reinforced plastic. Safety: Integrated circuit breakers and leakage protection.

Customization: Flexible configurations for unique project requirements. Applications: Construction sites, renewable energy installations, shipyards, outdoor events, and utilities. Additional Features: Lightweight fiberglass options, IoT-ready designs, and robust protection against physical impacts.

3.

SURAIELE

C 20 AMP GFCI Outdoor Outlet BoxVoltage Rating: 120Vac, 60Hz. Amperage: Dual 20 AMP GFCI outlets. Safety Compliance: ETL-listed for safety standards.

Construction: High-grade galvanized steel with anti-rust properties. Weatherproofing: NEMA 3R enclosure with gasket and cover for rainproof functionality. Installation: Pre-punched knockouts for easy wiring (1/2, 3/4, 1 inch).

Applications: Residential and commercial outdoor power needs, suitable for wet environments. 4.

Fos

Rich Weatherproof PVC Boxes

Sizes: Range from 4″ x 4″ x 2″ to 12″ x 12″ x 6″. Material: Durable PVC, suitable for outdoor electrical installations. Use Case: Ideal for smaller-scale outdoor wiring projects or as junction boxes.

Considerations for Selection in Jamaica

Environmental Resistance: Choose IP-rated or NEMA-rated enclosures for protection against rain, dust, and humidity. Material: Fiberglass or galvanized steel for corrosion resistance in coastal or industrial areas. Safety Features: GFCI protection and circuit breakers are essential for outdoor installations.

Capacity: Match amperage and voltage ratings to the intended load. Installation: Pre-punched knockouts and modular designs simplify wiring and maintenance. These options provide a range of solutions for outdoor power distribution in Jamaica, from robust industrial-grade boxes to smaller residential units, ensuring safety, reliability, and compliance with local electrical standards.
