Kuwait professional molded cable tray prices

Overview

Our cable support systems are available in two types- Ladder cable tray and perforated cable tray. These are good replacement of those cable trays that easily get corrode, spread heat and erode.

Key Takeaways

Molded cable tray prices in Kuwait vary depending on material, type, size, and supplier, with FRP/GRP trays generally costing more than standard steel or PVC trays. Types of Molded Cable Trays in KuwaitFRP/GRP Cable Trays: Made from glass-reinforced thermoset resins, these trays are fire-resistant, corrosion-resistant, UV-resistant, and electrically insulating, making them ideal for harsh environments where metallic trays may corrode or conduct electricity. They are available in ladder, perforated, and solid-bottom designs and can be customized with bends, tees, reducers, and covers (Alnafaa Group).

Steel and Stainless Steel Trays: Commonly used for heavy-duty power distribution, these include ladder, perforated, solid-bottom, and wire mesh trays. They offer high strength and durability but may require anti-corrosion treatment in humid or chemical-prone environments (Altawakol NTT).

PV

C and Mild Steel Trays: Suitable for light to medium-duty applications, these trays are cost-effective and easy to install, often used in residential or commercial projects (Brilltech Engineers).

Factors Affecting Prices

Material: FRP/GRP trays are generally more expensive than PVC or mild steel due to their corrosion resistance and fire-retardant properties. Tray Type: Ladder trays for heavy-duty applications cost more than perforated or wire mesh trays. Size and Load Capacity: Larger trays or those designed to carry heavier cables increase the price.

Customization: Special fittings, bends, covers, and accessories add to the overall cost. Supplier and Brand: Premium suppliers like Alnafaa Group, Almeer Industries, and Brilltech Engineers may charge higher prices due to quality assurance and after-sale support.

Suppliers in Kuwait

Alnafaa Group: Specializes in FRP/GRP molded cable trays with a wide range of accessories and custom sizes. Almeer Industries: Offers high-quality cable trays for commercial and industrial projects.

Altawakol NT

T: Provides steel, perforated, ladder, and wire mesh trays with expert consultation. Brilltech Engineers: Supplies PVC, mild steel, stainless steel, and perforated trays with customized solutions.

AT

N Info Directory: Lists multiple cable tray manufacturers and distributors in Kuwait for comparison and sourcing.

Recommendation

For accurate pricing, it is recommended to contact suppliers directly with your project specifications, including tray type, material, size, and quantity. This ensures you receive customized quotes and can compare options for cost-effectiveness and durability. Molded FRP/GRP trays are ideal for long-term performance in corrosive or high-temperature environments, while steel or PVC trays may be more economical for standard installations.
