Malaysia Molded Cable Tray Prices

Overview

Affordable cable tray prices in Malaysia. Durable and efficient solutions for cable management and protection. Available in various sizes.

Key Takeaways

Molded cable trays in Malaysia typically range from RM 100 to RM 400 per 2. 44-meter section, depending on material, size, and finish.

Price Overview

Molded cable trays are available in mild steel, galvanized steel, aluminum, or stainless steel, with finishes such as epoxy paint or hot-dip galvanizing for corrosion resistance. For example, a 2. 44-meter U-LI cable tray in mild steel with epoxy coating is priced individually, with exact quotes provided by suppliers upon request.

Prices vary based on width (200mm–300mm), thickness (0. 8mm/20 gauge), and load capacity.

Supplier Options

Key regions for cable tray manufacturing in Malaysia include Penang, Selangor (Klang Valley), and Johor (Iskandar Malaysia), which host industrial parks and export-oriented facilities. Suppliers often provide customizable options and adhere to international standards like IEC 61537 for load capacity and corrosion resistance. Verified suppliers can be found through platforms like Volza, which lists 8 active cable tray manufacturers in Malaysia with shipment-level pricing and trade intelligence.

Additional Considerations

Material choice affects durability and price: stainless steel trays are more expensive than mild steel or aluminum. Finishing: epoxy-coated trays are common for indoor use, while hot-dip galvanized trays are preferred for outdoor or industrial environments. Accessories: supports, connectors, and risers may be sold separately, impacting total procurement cost.

Delivery: transportation fees are often additional, and suppliers may provide quotes based on location and order volume. For accurate pricing, it is recommended to contact suppliers directly to request quotes based on tray dimensions, material, and quantity, as prices fluctuate with market conditions and customization requirements.
