Manufacturer of copper plaques for distribution boxes

Overview

The copper coil strip or sheet for distribution boxes is used to install the copper between the box and the wall.

Key Takeaways

Copper plaques for distribution boxes can be sourced from specialized copper suppliers and custom metal fabricators offering sheets, strips, and custom-made plates.

Copper Sheet and Strip Suppliers

Cobral srl supplies high-purity copper sheets and strips (99. 98% pure) suitable for electrical applications, including distribution boxes. Their products are designed for excellent electrical conductivity, corrosion resistance, and cold forming, making them ideal for bus bars or plaques inside switchgear and control panels (Cobral srl).

Lewis Brass & Copper offers a wide range of copper products including sheets, coils, rods, and custom shapes. They provide precision cutting and polishing services, which can be used to create copper plaques for electrical enclosures or distribution boxes. Their inventory supports both standard and custom dimensions (Lewis Brass & Copper).

Custom Metal Nameplates and Plaques

Metal Marker Manufacturing specializes in custom metal nameplates and placards, which can be adapted for use as copper plaques on distribution boxes. They offer durable materials including copper, brass, and stainless steel, with options for engraving, logos, serial numbers, and other identification marks. These plates are designed to withstand harsh environments, including heat, moisture, and chemical exposure (Metal Marker Mfg.).

Electrical-

Specific Copper Products

Mehta Group / Daman manufactures copper bus bars, strips, and hollow profiles for electrical panels, switchgear, and control panels. Their copper products are highly conductive and customizable, making them suitable for use as plaques or mounting plates inside distribution boxes (Mehta Group).

Recommendations

For standard copper sheets or strips, Cobral srl and Lewis Brass & Copper are reliable suppliers with extensive stock and customization options. For custom engraved or labeled plaques, Metal Marker Manufacturing can provide durable, long-lasting copper plates with precise markings. For electrical-specific applications, including bus bars or plaques integrated into switchgear, Mehta Group offers products designed for high-current distribution and industrial use.

By combining these suppliers, you can source both the raw copper material and custom fabrication services to produce high-quality copper plaques for distribution boxes that meet electrical and durability requirements.
