Manufacturer of fiber optic cables for smart buildings in Northern Europe

Overview

Optical Fibre | PrysmianWith centres of excellence in Italy, the Netherlands and France, and five production sites around the world, we are a world-leading.

Key Takeaways

Key manufacturers supplying fiber optic cables for smart buildings in Northern Europe include Prysmian Group, Nexans, Leoni, HUBER+SUHNER, and Foss Fiber Optics.

Leading Manufacturers

Prysmian Group (Italy) Prysmian is the world's largest cable manufacturer, offering a wide range of fiber optic solutions suitable for smart buildings, including high-density micro-cables and BendBrightXS fibers for tight bends in building infrastructure. They have extensive European operations and focus on advanced technologies like Hollow-Core Fiber, making them suitable for modern smart building networks. Nexans (France/Norway) Nexans provides CPR-compliant fiber optic cables that meet strict European fire safety standards, essential for smart building installations.

Their products are designed for industrial, commercial, and residential applications, ensuring signal integrity and safety in complex building environments. Leoni (Germany) Leoni specializes in fiber optics for industrial and data communication applications. Their cables are widely used in smart building projects, offering high-quality optical fibers and structured cabling solutions suitable for Northern European climates and building codes.

HUBER+SUHNER (Switzerland) HUBER+SUHNER delivers high-performance fiber optic connectivity solutions for telecommunications, transportation, and data centers. Their products are suitable for smart buildings requiring reliable, high-speed data transmission and robust optical infrastructure. Foss Fiber Optics (Norway/Slovakia) Foss Fiber Optics focuses on structured cabling for industrial and office buildings, with local production in Norway and Slovakia.

They manufacture optical connectors, field cables, and data racks, offering customized solutions for smart buildings. Their products comply with sustainability standards and are tailored for Northern European markets.

Considerations for Smart Building Projects

Fire Safety Compliance: Ensure cables meet CPR and Cca ratings for indoor installations. Bend Radius and Space Constraints: Use micro-cables like Prysmian's BendBrightXS for tight routing. Local Support and Customization: Companies like Foss Fiber Optics provide local production and tailored solutions.

Sustainability: Many European manufacturers, including Foss and Prysmian, follow ISO 14001 environmental standards. These manufacturers collectively provide a comprehensive range of fiber optic solutions suitable for smart buildings in Northern Europe, from high-density cabling to customized structured systems.
