

New Zealand provides prices for galvanized cable trays

Overview

Cable Tray — Ideal Electrical Suppliers LimitedShop online, or at one of our New Zealand-wide stores today. Equip Supply Ltd | Stern Cable Trays | Durable.

Key Takeaways

Galvanized cable tray prices in New Zealand vary depending on size, type, and supplier, typically ranging from moderate to premium rates for commercial and industrial applications.

Suppliers and Product Options

Several suppliers in New Zealand offer galvanized steel cable trays: RS Online NZ stocks a range of galvanized steel cable trays suitable for industrial and commercial use, with fast delivery options. Ideal Electrical Suppliers provides Runnur Solar Cable Trays with Zn-Mg-Al alloy coating, available in sizes like 150mm x 50mm x 3m and 150mm x 3m flat cover, designed for high corrosion resistance. Equip Supply Ltd offers Stern Cable Trays, which are durable, easy-to-install steel trays for electrical and data cabling, suitable for commercial and industrial projects.

Scott Electrical carries a broad selection of cable trays across Auckland and nationwide, including galvanized options.

Factors Affecting Price

The cost of galvanized cable trays depends on several factors: Tray Type: Ladder, wire mesh, or trough designs influence material usage and price. Ladder trays are ventilated and support heavy loads, wire mesh trays are lightweight and flexible, and trough trays offer maximum protection but may be more expensive. Dimensions: Width, depth, and length of the tray directly affect material cost.

Longer or wider trays generally cost more. Material and Coating: Galvanized steel with additional Zn-Mg-Al alloy coatings provides higher corrosion resistance, which can increase price. Supplier and Brand: Premium brands like Stern or Runnur may charge more for durability and ease of installation.

Quantity and Bulk Orders: Larger orders often reduce the per-meter cost due to economies of scale.

Recommendation

For accurate pricing, it is best to contact suppliers directly or check their online stores, as prices fluctuate based on stock, specifications, and delivery options. Comparing multiple suppliers like RS Online, Ideal Electrical, Equip Supply, and Scott Electrical will help identify the most cost-effective option for your project.
