Niger gigabit optical module manufacturer direct supply

Overview

Optical Fiber Manufacturing. Lightmax SL is a company founded in 2007, specialized in the manufacturing and supply of products for passive optical fiber networks.

Key Takeaways

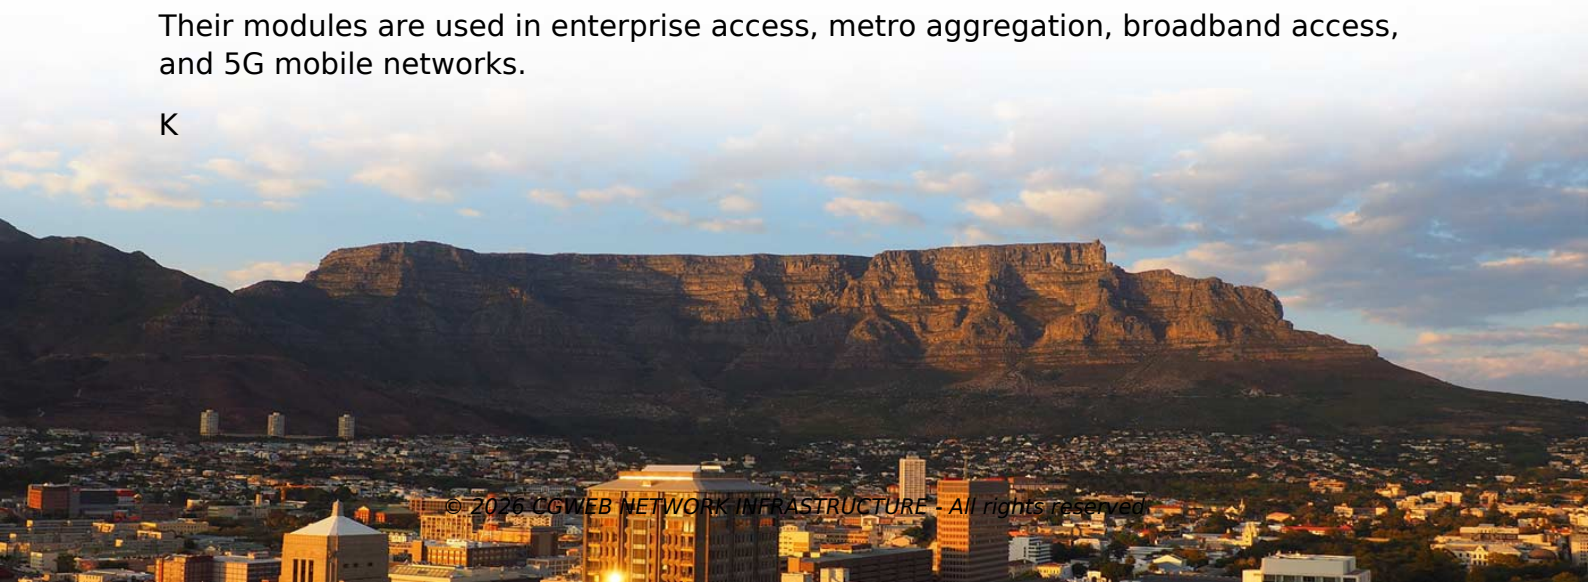

While there are no widely recognized optical module manufacturers based directly in Niger, international suppliers and distributors provide gigabit optical modules to the region.

International Manufacturers and Suppliers

Molex – Molex produces high-performance optical transceivers and modules supporting data rates from 100 Mbps to 400 Gbps, suitable for data centers, metro, and long-haul networks. Their products comply with Ethernet, SONET/SDH, Fibre Channel, and CPRI standards, making them a reliable choice for high-speed networking in Niger. Coherent – Coherent offers a broad range of pluggable optical transceivers for Ethernet, storage area networks (SAN), datacenters, and telecom applications.

Their modules are used in enterprise access, metro aggregation, broadband access, and 5G mobile networks.

D Tech – KD Tech specializes in semiconductor ICs for multi-gigabit optical networking over fiber optics, with applications in automotive, industrial, and consumer connectivity. Their solutions are designed for high-speed optical communication in harsh environments. Global Optical Module Brands – Companies like Zhongji Innolight and Chengdu Eoptolink provide high-speed optical modules for data centers, telecommunications, and smart grid applications.

These manufacturers offer R&D, production, and sales of advanced optical transceivers suitable for gigabit networking.

Local Distribution in Niger

Alldatasheet Niger Optical Module Inventory – Distributors list Niger-specific optical modules for purchase, including stock availability, pricing, and RFQ options. This platform allows businesses in Niger to source optical modules from international suppliers.

Recommendations

For high-speed networking projects in Niger, it is practical to source optical modules from international manufacturers like Molex, Coherent, or KD Tech through local distributors or online platforms. Ensure compatibility with your network infrastructure (e.g., Ethernet standards, data rates) and verify shipping and support options for Niger. Consider contacting distributors listed on platforms like Alldatasheet to check for local stock and delivery timelines.

By leveraging these international suppliers and distributors, organizations in Niger can access reliable gigabit optical modules for data centers, telecom networks, and industrial applications.
