Coleman Wires and Cables: Manufactures a diverse range of cables, including communication and fiber optic cables, ensuring compliance with international standards. Communication Network Support Services Limited (CNSSL): Specializes in the design, implementation, and maintenance of fiber optic cable networks, offering project management, testing, and expansion services across West Africa.

Additional Considerations

These manufacturers typically provide single-mode and multimode patch cords, pigtails, and custom fiber assemblies. Many also offer installation, testing, and maintenance services, ensuring that fiber optic networks meet performance standards such as low insertion loss and high return loss. For businesses seeking OEM or ODM services, these companies can supply customized solutions tailored to specific telecom or data center requirements.

By engaging with these Nigerian manufacturers, companies can access locally produced fiber optic patch cords, reduce import dependency, and benefit from regional support and faster delivery times.
