Norway Project Quotation 8-core Fiber Optic Distribution Box

Overview

TTI Fiber manufactures fiber optic distribution boxes in wall-mount, pole-mount, and rack-mount configurations with capacities from 8 to 96 fiber cores.

Key Takeaways

An 8-core fiber optic distribution box suitable for Norway can be sourced with IP65-rated outdoor protection, pre-terminated or splice-ready configurations, and flexible mounting options.

Product Overview

An 8-core fiber optic distribution box serves as a termination and distribution point for feeder cables to drop cables in FTTH/FTTB networks. It integrates fiber splicing, splitting, distribution, storage, and cable connection in a single unit, providing robust protection and management for the network infrastructure. These boxes are available in indoor and outdoor configurations, with IP65-rated enclosures for weatherproofing and UV resistance.

Key Specifications

Core Capacity: 8 fibersEnclosure Material: PC/ABS UV-resistant plastic or powder-coated steel for indoor models Mounting Options: Wall-mount, pole-mount, or rack-mount depending on network deployment Adapter Compatibility: SC or LC adapters with integrated splice trays and PLC splitter support Protection Features: Dustproof, waterproof, and mechanical protection for delicate fiber splices Optional Configurations: Pre-terminated with factory-installed splitters and pigtails, or empty for field customization Supplier Options in NorwayFoss Fiber Optics – Norwegian manufacturer offering customized fiber optic solutions, including plug-and-play distribution boxes for telecom, defense, offshore, and industrial environments.

They provide factory-tested, high-quality products tailored to Norwegian standards.

G

L Fiber – Offers 8-core IP65 fiber optic distribution boxes with integrated splicing, splitting, and storage, suitable for FTTX networks. They provide ISO 9001-certified quality and international shipping.

TT

I Fiber – Provides pre-terminated or splice-ready 8-core distribution boxes with flexible mounting, IP65 outdoor rating, and OEM customization options.

Quotation Considerations

When requesting a quotation, ensure the following details are included to receive an accurate offer: Fiber type and mode (single-mode or multi-mode)Quantity required and packaging preferencesInstallation environment (indoor/outdoor, wall/pole/rack)Delivery schedule and destination in NorwayCompliance standards (ISO 9001, IP rating, local telecom regulations)Optional pre-terminated or splice-ready configuration Providing these parameters allows suppliers to match the product to your project requirements, ensuring proper installation, durability, and network performance. For a Norwegian project, contacting Foss Fiber Optics directly is recommended for local support, customization, and compliance with Norwegian standards.
