Poland sells fiber optic cables

Overview

Volza allows you to find genuine Optical fibre cable suppliers & exporters in Poland, basis of actual export import shipments collected globally from over 20,000 ports from over 70+ Countries.

Key Takeaways

Poland is home to numerous manufacturers and distributors of fiber optic cables, serving both domestic and international markets. Polish companies produce a wide range of fiber optic cables for telecommunications, internet infrastructure, and specialized applications. Major manufacturers include YOFC Poland, which has expanded its production to meet European standards and exports products to over 100 countries, offering both indoor and outdoor cables.

FIBRAI

N provides a comprehensive portfolio of fiber optic cables and related components for advanced networks, emphasizing reliability and innovation. A-LAN Technologie supplies fiber products under its ALANTEC brand, including FTTx solutions, metropolitan network cables, pigtails, adapters, and cross cables, targeting telecom operators and local network integrators. Other notable companies include BOB Fiber Optic Technique, which specializes in high-speed internet solutions and fiber optic applications in medical equipment, and Salumanus, which focuses on fiber optic network systems and components for stable data transmission.

These companies often combine manufacturing with services such as network design, installation, and training, ensuring comprehensive support for clients. Polish fiber optic cables are used in a variety of sectors, including broadband internet, digital television, and industrial or medical applications. Many manufacturers maintain research and development facilities to innovate in photonics and telecommunications, ensuring high-quality products that meet international standards.

For businesses or individuals looking to purchase fiber optic cables from Poland, these companies offer both standard and customized solutions, with options for bulk orders, in-house terminated cables, and accessories. Poland's fiber optic industry is well-positioned to supply both European and global markets, combining competitive pricing with advanced technological expertise.
