Polymer Composite Cable Tray Brands

Overview

EDGE TRAY by CREO Composites represents our advanced line of FRP (Fiber Reinforced Polymer) cable tray systems, developed in close collaboration with trusted manufacturers.

Key Takeaways

Leading manufacturers of polymer composite cable trays include Ebo Systems, Yongchang, Creative Composites Group, IndiGrate Composites, and EPP Composites, offering durable, corrosion-resistant FRP/GRP solutions for industrial and commercial applications.

Key Manufacturers and Offerings

Ebo Systems Ebo Systems specializes in GRP cable trays with exceptional resistance to corrosive environments, extreme temperatures, and heavy loads. As part of the Niedax Group, Ebo Systems provides global support, technical advice, planning, and installation services. Their products are manufactured using continuous pultrusion and hot pressing, ensuring long-term durability in sectors like energy, transportation, chemical, and water industries.

Yongchang Based in China, Yongchang produces FRP, polymer composite, epoxy resin, and polyurethane cable trays. Their trays are designed for harsh environments, offering corrosion resistance, anti-aging properties, and easy installation. Yongchang serves industries such as petrochemical, coal chemical, metallurgy, and electric power, providing complete solutions for power distribution and industrial cabling.

Creative Composites Group Creative Composites Group manufactures Fiber Reinforced Polymer (FRP) cable trays suitable for extreme conditions, including offshore platforms, chemical plants, and refineries.

Their GR

P cable trays are lightweight, non-conductive, and highly resistant to chemical attack, providing a strong strength-to-weight ratio compared to steel.

Indi

Grate Composites Indi

Grate Composites offers FRP cable trays engineered for industrial, commercial, and outdoor applications. Their trays provide high load-bearing capacity, corrosion resistance, UV protection, and fire retardance. Advanced manufacturing techniques ensure minimal maintenance and long-term reliability in harsh environments.

EPP Composites EP

P Composites produces FRP cable trays in multiple configurations, including ladder, solid bottom, perforated, channel, and wire mesh. Their trays are lightweight, non-conductive, corrosion-resistant, and UV-stable, making them suitable for outdoor and industrial use. Accessories such as covers, couplers, and support hardware are also available.

Advantages of Polymer Composite Cable Trays

Corrosion Resistance: Ideal for chemical, saline, or industrial environments. Lightweight and Strong: Easier handling and installation compared to steel.

Non-

Conductive: Provides electrical insulation and EMI immunity. Durable: Resistant to UV, fire, and extreme temperatures. Versatile Configurations: Ladder, channel, solid-bottom, perforated, and wire-mesh designs.

These manufacturers provide global supply and technical support, making them suitable for projects requiring reliable, long-lasting cable management solutions in demanding environments.

CREO Composites – Advanced FRP & Carbon Fiber Solutions

EDGE TRAY by CREO Composites represents our advanced line of FRP (Fiber Reinforced Polymer) cable tray systems, developed in close collaboration with trusted manufacturers.

Top 10 Companies in the Fiberglass-reinforced Cable Tray Industry

In this blog, we profile the Top 10 Companies in the Fiberglass-reinforced Cable Tray Industry —a mix of global composites specialists, established industrial suppliers, and innovative

Ebo Systems

With over 60 years of expertise and innovation, the company has built a strong reputation in the field of cable and conduit management. The exceptional quality

Fiberglass (FRP) Cable Tray for Extreme Conditions

Made from the highest quality pultruded materials, our Fiber Reinforced Polymer (FRP) cable tray is extremely durable and resistant to chemical attack, with a proven record of performance in the most

Cable Tray Manufacturers

Our cable tray factory specializes in producing durable, corrosion-resistant, and lightweight FRP cable trays and GRP cable trays, as well as epoxy cable trays and FRP GRP cable ladder covers.

Top 10 Cable Trays Manufacturers And Suppliers | B2B Headlines

This list of top 10 online B2B marketplaces and manufacturers will lead you to find your perfect cable trays based on your business requirements.

Best FRP Cable Tray Manufacturers for Office and

This guide highlights five top FRP-based cable tray options from leading manufacturers, based on capacity, installation options, and overall value.

Top 10 FRP Cable Tray Manufacturers in 2024 | Leading Composite

Top 10 FRP cable tray manufacturers in 2024. Explore their lightweight, corrosion-resistant solutions for industrial applications such as offshore, chemical, and water treatment.

Creative Composites Group | Advanced FRP Solutions

© 2026 CGWEB NETWORK INFRASTRUCTURE - All rights reserved

CCG has been developing lightweight, durable, cost-effective FRP products for structurally demanding applications and corrosive environments for more than 50 years.

Polymer Cable Trays

Our high-quality polymer cable trays are specifically designed for cable management in a wide range of industrial and commercial applications. Made from advanced

Manufacturer of GRP/FRP Pipe & Chemical Equipment by ...

FRP Cable Trays are non-metallic support systems for routing electrical and data cables in industrial and commercial facilities. Made of fiberglass-reinforced plastic, FRP trays are extremely corrosion

Polymer Cable Trays Types: Your Guide to Choosing Right

Explore different Polymer Cable Trays Types. We break down solid, hollow, and steel-lined options for your cable management needs. Find the best fit.

Top 10 Cable Trays Manufacturers And Suppliers | B2B

Top 10 Cable Trays Manufacturers And Suppliers Cable trays, as the name suggests, are structural systems used to hold and support cables and wires in

CREO Composites – Advanced FRP & Carbon Fiber Solutions

Smart Cable Management, Built to Withstand the Elements EDGE TRAY by CREO Composites represents our advanced line of FRP (Fiber Reinforced Polymer) cable tray systems, developed in

Polymer Cable Trays

The lightweight design of polymer cable trays makes them easy to handle and install, significantly reducing construction costs and time.

Cable Tray Corrosion Solutions: Polymer vs. Fiberglass

Composite materials offer a major upgrade from traditional metal cable trays. Polymer and fiberglass options are designed to handle tough

FRP/GRP Cable Management System

6 Mita Flex relates to our newest range of FRP/GRP pultruded cable management solutions, including cable ladders, cable trays, all related formpieces and accessories, as well as a new innovative and

EFG Composites
