Overview

Heavy-Duty 201 Stainless Steel Cable Tray for Versatile Use Heavy-Duty 201 Stainless Steel Cable Tray for Versatile Use, Find Details and Price about Stainl.

Key Takeaways

The price of 201 stainless steel cable trays typically ranges from \$15 to \$50 per meter, depending on size, customization, and supplier.

Pricing Overview

The cost of 201 stainless steel cable trays varies based on several factors:
Dimensions and Load Capacity: Wider trays or those with higher side rails and load ratings generally cost more. For example, side rail heights can range from 100mm to 400mm, affecting the price. Length and Type: Standard lengths are usually up to 3 meters, but custom lengths or partitioned trays may increase costs.

Surface Finish: Options like anodized, hot-dip galvanized, passivated, or coated with anti-corrosion paint can influence pricing.

Customization and OE

M Orders: Custom designs, perforated or ventilated trays, and special applications (industrial, network, or construction) may add to the cost. Supplier and Location: Prices vary by manufacturer and shipping location. Suppliers like Shandong Xuanlin Metal Materials Co., Ltd. and Jiangsu Huaxin Steel Co., Ltd. export worldwide, and shipping terms (EXW, FOB, CIF) affect the final price.

Estimated Price Range

Small or standard trays: \$15-\$25 per meter
Medium trays with higher load capacity or partitions: \$25-\$35 per meter
Large or fully customized trays: \$35-\$50 per meter
Additional Considerations
Minimum Order Quantity (MOQ): Many suppliers require a minimum order, often based on container loads or batch sizes.
Delivery Time: Depending on production season and order quantity, delivery can range from 3 to 20 days.
Quality Assurance: Reputable suppliers perform multiple inspections and offer technical support to ensure product quality.

For precise pricing, it is recommended to contact suppliers directly with your specifications, including tray dimensions, load requirements, surface finish, and quantity, to receive a tailored quotation.
