Price of 300 cable trays

Overview

Discover 300mm cable trays with hot-dip galvanized steel, CE certified for durable cable management. Ideal for industrial & construction use.

Key Takeaways

The price of 300mm cable trays varies by material and supplier, typically ranging from £25–£60 per 3-meter tray, with bulk discounts available for large orders.

Pricing Overview

Stainless Steel 300mm Cable Basket Tray (3m, A2/AISI 304): Durable, corrosion-resistant trays suitable for internal and external installations. Individual prices are not listed online, but suppliers like Direct Channel suggest contacting them for bulk or trade pricing, which would apply to an order of 300 units. Galvanised Steel 300mm x 60mm (2–3m lengths): Medium-duty trays are available from suppliers such as EKabel24 and Rexel UK.

Typical retail prices for single trays range from £25–£40 per tray, depending on length and finish. Bulk orders may reduce the per-unit cost. Medium Duty 300mm Cable Tray (3m): Economical metal trays from suppliers like ElectricPoint and CMW offer reliable solutions for commercial or industrial projects.

Prices for individual trays are generally in the £30–£50 range, with next-day delivery options and potential discounts for orders exceeding 100 units.

Bulk Purchase Considerations

Contact Suppliers Directly: For 300 trays, most suppliers recommend calling or emailing to obtain trade or bulk pricing, as online listings often do not reflect large-order discounts. Material Choice: Stainless steel trays are more expensive than galvanised steel but offer higher corrosion resistance, which may justify the cost for outdoor or industrial environments. Delivery and Lead Time: Bulk orders may require longer dispatch times.

Some suppliers offer free delivery for orders over a certain value, which can reduce overall cost.

Estimated Total Cost

Assuming an average price of £35–£50 per tray, the total cost for 300 trays would be approximately £10,500–£15,000, excluding VAT and shipping. Contacting suppliers directly can provide exact quotes and potential discounts for such a large order. For the most accurate pricing, it is recommended to reach out to suppliers like Direct Channel, ElectricPoint, CMW, or Rexel UK with your order quantity and specifications.
