Price of Cable Tray Terminal Cover Plates

Overview

Cover for cable trays Deckel RDSRS in various widths, material thickness 6 mm, with heavy aluminium chequer plate support, anti-slip, cover overlying Turni.

Key Takeaways

Cable tray cover plates typically range from £5 to £50 per piece, depending on material, size, and type.

Overview

Cable tray cover plates are used to protect cables from dust, debris, moisture, and mechanical damage while maintaining organized cable routing in industrial, commercial, and residential installations. They are available in various materials including aluminum, galvanized steel, stainless steel (304/316), and HDGAF steel. Covers can be flat, flat flanged, hat-shaped, or louvered, with options for ventilation or solid protection.

Price Factors

Material: Stainless steel and corrosion-resistant aluminum are more expensive than standard galvanized steel. Size and Length: Standard lengths are usually 12 feet, with shorter 5–6 foot sections available; longer or custom sizes increase cost. Type: Hat-shaped or ventilated covers generally cost more than flat covers due to additional fabrication.

Accessories: Cover clamps, snap-on fittings, or hinged designs for easy access may add to the total price.

Typical Price Range

Flat or flat flanged covers: £5–£20 per piece for standard widths (3–6 inches) and lengths (5–12 feet). Hat-shaped or ventilated covers: £15–£50 per piece depending on height, material, and ventilation features. Cover clamps or snap-on accessories: £2–£10 each, depending on compatibility and material.

Purchasing Tips

Check compatibility with your existing cable tray system before purchasing. Consider bulk orders for industrial projects to reduce per-unit cost. Verify material and corrosion resistance for outdoor or harsh environments.

Suppliers like RS Components, MP Husky, Platt Electric Supply, and Ekabel24 offer a range of options suitable for commercial and industrial installations. By considering these factors, you can select cable tray cover plates that balance cost, durability, and functionality for your specific installation needs.
