Price of Fiber Optic Cable Bracket

Overview

MefiberOptic provide a complete solution of products for fiber optic cable deployment for FTTx network constructions. We supply various clamps and brackets for ADSS or drop cable install solutions.

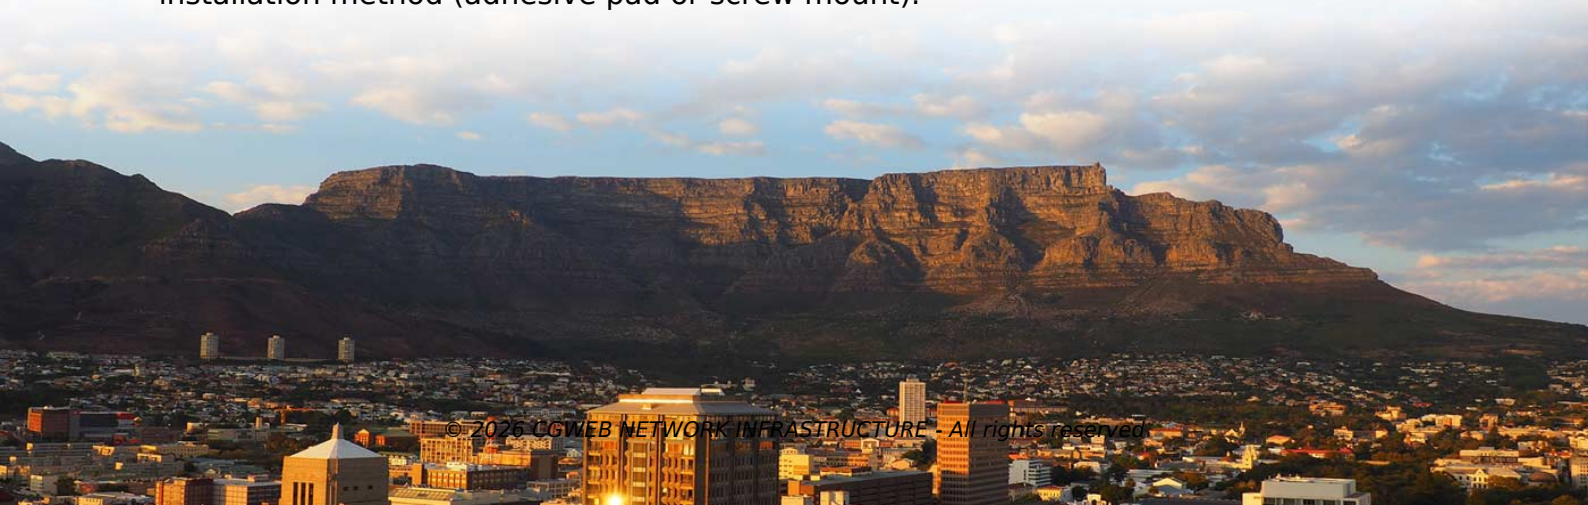

Key Takeaways

Fiber optic cable support brackets typically range from $2 to $50 per unit, depending on type, material, and application.

Overview of Bracket Types and Pricing

Indoor Mounting Brackets: These include cable lacing shelves, D-ring brackets, and fiber optic clips used in racks or enclosures. Prices generally range from $5 to $25 per bracket. For example, Kendall Howard cable lacing shelves support up to 10 pounds of cable and are made of sturdy materials suitable for server racks.

Outdoor or Aerial Brackets: Brackets for pole line or aerial fiber installations, including clamps, straps, and mounting hardware, are typically made from galvanized steel, aluminum alloy, or UV-resistant thermoplastics. Prices for these brackets range from $10 to $50 per unit, depending on size, material, and load capacity. Specialty Fiber Brackets: Fiber optic clips and guides designed for strain relief or splice protection can cost $2 to $15 each, depending on the number of splices they hold and installation method (adhesive pad or screw mount).

Factors Affecting Price

Material: Stainless steel and aluminum alloy brackets are more expensive than thermoplastic or basic steel options. Load Capacity: Brackets designed to support heavier cable bundles or multiple splices cost more. Application: Indoor rack-mounted brackets are generally cheaper than outdoor or aerial-grade brackets due to environmental durability requirements.

Quantity and Supplier: Bulk purchases or wholesale orders can reduce per-unit cost, while OEM or custom brackets may increase it.

Where to Buy

Fiber Savvy offers a wide range of indoor mounting brackets and cable management solutions. MefiberOptic.com provides clamps and brackets for ADSS or drop cable installations, suitable for telecom projects.

Essentra Components U

S supplies fiber optic clips, brackets, and guides for both industrial and telecom applications.

STAA

R Corp specializes in aerial hardware and pole line equipment for fiber optic utility installations. By considering the type of installation and required durability, you can select brackets within the appropriate price range for your fiber optic project.
