Key Takeaways

Fiber optic cables with angled connectors typically range from $10 to $50 for short LC duplex cables, while full fiber optic panels and modules can cost from $100 to over $1,000 depending on fiber count and configuration. Fiber Optic Cables with Angled ConnectorsShort LC duplex singlemode cables with angled connectors (0. 5 m) are available for around $10–$20 per cable, suitable for connecting switches, media converters, or other network devices in tight spaces due to their space-saving angled design (right, left, up, or down).

Prices vary by length, fiber type (singlemode OS2 or multimode OM3/OM4), and vendor.

Fiber Optic Panels and Modules

Structured fiber optic panels, cassettes, and modules, which accommodate angled connectors, are more expensive. For example, CommScope's Propel Series sliding fiber optic panels and NG4access modules support LC, SC, and MPO/MTP connectors and can range from $100 to over $1,000 depending on fiber count (up to 864 fibers), module type, and additional features like splice trays or monitoring modules. These panels are designed for enterprise networks, data centers, and telecom installations.

Vendor OptionsDigiKey and Mouser offer a wide selection of fiber optic connectors and adapters, with pricing available per unit and options for same-day shipping. Amazon provides packs of SC/APC or LC connectors and couplers, often in bulk (e.g., 12-pack), with prices ranging from $15 to $50 depending on type and quantity. Reichelt offers angled LC duplex cables at competitive prices for short lengths, ideal for space-constrained installations.

Summary

Short angled LC duplex cables (0. 5–1 m): $10–$20 eachBulk connector packs (SC/APC, LC): $15–$50Fiber optic panels/modules (high fiber count, enterprise-grade): $100–$1,000+ For precise pricing, it is recommended to check vendor websites like DigiKey, Mouser, Amazon, or CommScope, as prices fluctuate based on stock, fiber type, and configuration.
