

Price of environmentally friendly cable trays and supports in Sri Lanka

Overview

We provide a variety of cable trays and accessories, including electro galvanized, hot dip galvanized, steel, aluzinc, and aluminum alloy options.

Key Takeaways

Environmentally friendly cable trays in Sri Lanka, such as hot-dip galvanized, powder-coated, aluminum, and FRP trays, typically range from LKR 1,500 to LKR 8,000 per meter depending on material, size, and load capacity. Material Options and Pricing
Hot-Dip Galvanized Steel Trays: These are highly durable, corrosion-resistant, and comply with EN ISO 1461 standards. Prices generally range from LKR 1,500 to LKR 4,500 per meter, depending on tray width, depth, and thickness.

Powder-

Coated Steel Trays: Suitable for indoor environments, offering enhanced aesthetics and corrosion protection. Prices are slightly higher, around LKR 2,000 to LKR 5,000 per meter. Aluminum Alloy Trays: Lightweight and corrosion-resistant, ideal for environmentally sensitive installations.

Prices typically range from LKR 3,500 to LKR 6,500 per meter.

Fiberglass-

Reinforced Polymer (FRP) Trays: Designed for highly corrosive or outdoor environments, FRP trays are eco-friendly and long-lasting, with prices from LKR 4,500 to LKR 8,000 per meter.

Factors Affecting Cost

Load Capacity: Light, medium, or heavy-duty trays influence pricing. Heavier-duty trays cost more due to thicker steel or reinforced materials. **Tray Dimensions:** Wider and deeper trays require more material, increasing cost.

Compliance and Standards: Trays meeting ASTM A123, IEC 61537, and Sri Lanka Standards (SLS) may carry a premium due to quality assurance. **Accessories and Supports:** Bends, tees, reducers, and mounting supports add to the overall project cost. **Local vs Imported Products:** Locally manufactured brands like CEYLEKTRA and GERSAN offer competitive pricing with compliance to international standards, while imported trays may be more expensive due to shipping and import duties.

Supplier Options in Sri Lanka: Eastlink.lk: Offers a variety of steel, aluminum, and alloy trays with accessories for industrial and commercial applications. C & D International (Pvt) Ltd: Provides a range of cable trays and supports suitable for different load capacities and environments. Bianco.lk: Supplies hot-dip galvanized and powder-coated trays, emphasizing durability and corrosion resistance for indoor and outdoor use.

Cubik.lk: Offers complete cable management systems including trays, ladders, and trunkings.

Conclusion

For environmentally friendly cable trays and supports in Sri Lanka, hot-dip galvanized, powder-coated, aluminum, and FRP trays are the most common options. Prices vary based on material, size, load capacity, and compliance with standards, generally ranging from LKR 1,500 to LKR 8,000 per meter. Selecting a supplier with certified products and after-sales support ensures long-term durability and compliance with environmental and safety standards.
