Price of fiber optic cables for routers

Overview

Discover the cost of fiber optic cable in this pricing guide. Learn material prices, installation factors, and what impacts total project costs overall.

Key Takeaways

Fiber optic cables for routers typically cost between $1 and $6 per foot, with installation adding $1 to $12 per foot depending on complexity.

Cable Material Costs

The price of fiber optic cable varies by type and strand count. Single-mode fiber generally costs $0. 10 to $0.

50 per foot, while multi-mode fiber ranges from $0. 30 to $1. 00 per foot.

Simple 1-core FTTH drop cables can cost around $0. 13 per foot, whereas high-count backbone cables (e.g., 288 strands) may reach $6 per foot. Pre-terminated patch cables and assemblies are more expensive due to factory termination and connector types.

Retail Options

For home or office routers, fiber optic patch cables are widely available online in various lengths and connector types. Prices on platforms like Amazon typically range from $10 to $50 for standard 3–10 meter cables, depending on single-mode or multi-mode and connector type. Specialty cables, such as OM3/OM4 or armored outdoor cables, cost more.

Installation Costs

If professional installation is required, costs vary by method and property layout. Home installations typically range from $1,500 to $7,000, averaging around $4,500, with per-foot costs between $1 and $12 depending on whether the cable is aerial, underground, or direct-burial, and including labor, permits, and site preparation.

Factors Affecting Price

Cable type: Single-mode vs multi-mode, indoor vs outdoor, armored vs standardLength: Longer runs increase material and labor costsInstallation complexity: Trenching, splicing, and termination add to total costConnector type: SC, LC, MTP/MPO, or pre-terminated assembliesEnvironmental rating: Plenum-rated, riser-rated, or direct-burial cables For a typical home router setup, a 3–10 meter single-mode or multi-mode patch cable is sufficient, costing $10–$50, while larger or professionally installed networks will incur higher costs based on length and installation requirements.
