Price of finished vertical tees for cable trays

Overview

We offer a range of cable crossovers and tees, available in both equal and unequal measures, for light, medium, and heavy duty cable tray systems in widths of 50mm - 900mm.

Key Takeaways

The price of finished vertical tees for cable trays varies widely depending on material, finish, size, and duty class, typically ranging from $50 to $300 per unit.

Factors Affecting Price

Material and FinishPre-galvanized steel (PG): Usually the most economical option, suitable for light to medium-duty applications. Hot-dip galvanized steel (HDG): Offers better corrosion resistance, often used in outdoor or industrial environments, and costs more than pre-galvanized. Stainless steel (316L): High corrosion resistance for harsh environments, typically the most expensive option.

Duty Class and Tray Compatibility

Class 1 (NEMA 12B/12C): Light-duty trays with 1 1/8" side rail flanges. Class 2 (NEMA 20A/20B/20C): Medium-duty trays with 2" side rail flanges. Class 3 and above: Heavy-duty trays with wider flanges and more splice holes, increasing material and manufacturing costs.

Size and Configuration

Tee dimensions (widths W1/W2, depth) directly affect material usage and price. Variations like Ascent, Descent, or Lateral Descent vertical tees may also influence cost.

Additional Features

Closed or ventilated covers, special coatings, or custom lengths can increase the price. Fast shipping or just-in-time delivery may add to the overall cost. Typical Pricing RangeLight-duty pre-galvanized vertical tees: Approximately $50–$100 per unit.

Medium-duty hot-dip galvanized tees: Approximately $100–$200 per unit. Heavy-duty stainless steel tees: Approximately $200–$300 or more per unit, depending on size and customization.

How to Obtain Exact Pricing

Since prices vary by supplier, material, and order quantity, it is recommended to contact manufacturers or distributors directly for a quote. Suppliers like Metsec, Power Utility Products Co, ATKORE, and Vantrunk provide vertical tees and can issue quotes based on your specific requirements. Online distributors like Shop4 Electrical may also list indicative prices for standard pre-galvanized tees.

By specifying the material, duty class, size, and any special features, you can receive an accurate price for your project.
