Price of galvanized conduit for optical cables

Overview

Buy premium Optical Cable Galvanized Conduit Suppliers in bulk from verified wholesale suppliers and manufacturers. Best prices, bulk discounts, trusted deals at go4WorldBusiness .

Key Takeaways

Galvanized steel conduits for optical cables typically range from $5 to $50 per 10-foot section depending on size and type, with multiple suppliers offering fast quotes and delivery.

Supplier Options and Pricing

Gordon Electric Supply offers rigid galvanized steel conduits in various diameters (1/2" to 3") and lengths (commonly 10 feet). Prices vary by size, with smaller diameters generally starting around $5–$10 per 10' section and larger diameters up to $50 per 10' section, depending on specifications and availability. Newark Electronics stocks galvanized steel conduits from top manufacturers like ABB and Thomas & Betts, providing fast quotes, same-day dispatch, and technical support.

Pricing is available upon request through their online platform. Alibaba lists rigid galvanized steel conduits for industrial and commercial applications, with prices depending on type (RMC, IMC, EMT), diameter, and order quantity. Bulk orders often reduce per-unit cost.

Europages provides a directory of 20+ suppliers worldwide for galvanized conduits suitable for optical cables, allowing direct contact for quotes and delivery options.

Types and Considerations

Rigid Metal Conduit (RMC): Strong, impact-resistant, ideal for industrial environments. Intermediate Metal Conduit (IMC): Lighter than RMC, suitable for commercial installations. Electrical Metallic Tubing (EMT): Lightweight, easy to install, commonly used in residential or light commercial projects.

PVC-coated or non-metallic options: Offer corrosion resistance for damp or outdoor environments. How to Obtain a QuoteDetermine the conduit type, diameter, and length required for your optical cable installation. Contact suppliers directly via their websites (e.g., Gordon Electric Supply, Newark Electronics, or Alibaba) to request a custom quote.

Specify quantity, delivery location, and any special requirements such as pre-threaded ends or PVC coating. Compare quotes to select the best combination of price, delivery time, and supplier reliability. By reaching out to these suppliers, you can obtain accurate, up-to-date pricing tailored to your project needs and ensure compatibility with optical cable installations.
